Subject: 404G EA Update
Attachments: (OS1) Briefing Table Final with Outcome.pdf; (OS2) AWWG Call 5-14-20.docx; OS2_Briefing_Docs.zip

Jess,

Looks like we have a 6/12 deadline for an updated 404G EA draft suitable for EPA/OWOW team review. I've added a prefix to the attached docs to identify which are from options selection 1 and 2, attached to this email. I don't believe you would have seen these yet? The second doc is less formal (it sounds like there will be a follow-up) but this should be useful to get started. The attached zip file contains the individual briefing docs from OS2. I'm not yet sure if those will prove useful, not yet having reviewed them myself, but they are included here just in case.

Could you review these option selection docs against the current EA and see where/if there are inconsistencies? Now is probably a good time to make those updates to the EA that you thought might be useful when we talked last week. If we could hit that 6/12 deadline with a tracked changes copy of the EA (changes tracked from the original the team would have seen) for team review so people could focus their review, that would be great. If you think that deadline is ambitious please let me know now and we can make changes accordingly. I think normally I like to review docs before they're sent to the full work group, but if I need to review at the same time as everyone else I'm comfortable doing so. In the end, that probably saves everyone time anyway!

Please also let me know if I should set up a call with you and the rulemaking team. I feel those are usually helpful, but also realize you're already familiar with the rulemaking. Maybe that would be most useful after you've had some time to digest the OS materials and compared them against the old EA? Same goes for the EPA/OWOW team, if you want to chat with Jess about the briefings and the docs I've attached (or suggest more – apparently they're running out of space for docs on Sharepoint so there are a lot to pick from - LOL!) please don't hesitate to let me know!

Anything I've missed?

Best,
Mike
